Pattern notes

- First sc is always worked in same stitch as ch1.
- Colour change always in last sc with two loops on hook.
- The pattern is worked in 3 parts plus the sides.
- Part 1 and 3 are following the mosaic scheme in chart 1.
- Part 2 is following the mosaic scheme in chart 2.
- The sides are worked as part 1 and part 3 but minus the second and the second last stitch. This makes the written pattern slightly different, but it follows the same graphical pattern.
- Every chart row represents two crochet rows in the same colour. The first row "creates" the pattern.
- Each square in the chart represents one stitch. If a yarn B stitch appears in a yarn A row you chain 2 and skip the stitch. Same thing when a yarn A stitch appears in a yarn B row.
- The charts are crocheted from bottom to top and from right to left.
- Chart 1: row 1,3,5 in yarn A, row 2 and 4 in yarn B.
- Chart 2: row 1,3,5,7,9… in yarn C, row 2,4,6,8,10… in yarn A.
- You crochet a mosaicdc if the square in the row below is an alternate colour square. It is always worked two rows below in front of work. This technique gives you the opportunity to create an alternate colour stitch in the row below.
- The second row of every chart row is sc in every sc or mosaicdc and 1ch2, skip1 stitch over every ch2, skip1 stitch. The first row of every chart row "creates" the pattern and the second row "manifests" it.
- Chain2 **always** counts as stitch.Chain3 over 2 skipped stiches counts as 2 stitches.
- Chain1 in the beginning of row does **not** count as stitch.
- The mosaic scheme in chart 1 is a multiple of 4 stitches plus 5.
- The mosaic scheme in chart 2 is a multiple of 16 stitches plus 5.

- The pattern is adjustable with a multiple of 16 plus 5 in width.
- The mosaic pattern in chart 2 is repeating itself from chart row 3 to row 6. So if you want your blanket shorter or longer you can reduce or add a multiple of this four chart rows.
- The first two and last two stitches in the mosaic patterns are starting/ending stitches. They do not affect the graphical mosaic pattern. It is also possible to work with only one starting/ending stitch at the end and in the beginning. (as this pattern suggests at the sides)
- The sides are worked with only one starting/ending stitch.
- In the fourth chart row of chart 1, you have a **ch3, skip 2 stitches** as second/third and second/third last stitch. This counts as 2 stitches. You crochet 2 mosaicdc over this ch3space in the first row of chart row six.
